Stakeholder Question or Concern:

Wilcox process includes coordination with

Key Message 1

Phase 1 ERT

Key Message 2

Phase 2 RACs

Key Message 3

removal

We are
working with
ERT to

Support

Collect site information quicker

Use the RAC
contract to
develop

Support

Focused RI plans and
investigation strategies

We continue to
coordinate
removal

Support

Residential sampling

Support

Develop a detailed CSM

Support

Provide better volume, cost, and
schedule estimates

Support

Database development

Support

Develop site-wide database

Support

Minimize surprises and potential
scope changes

Support

Community update

Map 2

Stakeholder Question or Concern:

What is ERT providing?

Key Message 1

The oversight

Key Message 2

Contracting mechanism

Key Message 3

Data collection and management

Support

Contract development

Support

Contractors

Support

Field data collection

Support

Real-time decision making

Support

Expertise

Support

Realtime interpretation and
adaptive filed collection

Support

Support

Support

Site-wide database support
and management

Map 3

Stakeholder:
Question or Concern:

Wilcox investigation process

Key Message 1

Document phase 1 findings

Key Message 2

Develop focused phase 2 - RI

Key Message 3

Develop focused phase 3 - FS

Support

Document CSM

Support

Define area of interest and
decision units

Support

Define specific remediation
areas: volume, COCs,

Support

Develop understanding of site

Support

Effective sampling
strategies based on decision
unit characteristics

Support

Develop remediation
technologies and cost estimates

Support

Investigation expertise

Support

Expect reduction in sampling
cost: analytical and field

Support

Support the ROD, RD, and RA

Expect cost and time savings
related to RD and RA
